

Environmental Policy

Bronbury recognises and accepts that concern for the Environment is an integral and fundamental part of the Companies corporate business strategy.

The Company will seek actively to reduce its impact on the Environment to the lowest practicable minimum, by recognising it's responsibilities through a proactive policy on safety at the work place, control of pollution and care for the local environment as follows.

- **“Management Involvement”** managers at all levels throughout the Company must take individual responsibility to ensure that environmental issues are considered carefully when making decisions or when planning and controlling work.
- **“Workforce Involvement”** all employees will be made aware of their individual responsibilities for acting in accordance with the Environmental Policy.
- **“Training”** appropriate training and instruction will be incorporated into the Companies House training Program.
- **“Engineering and Safety”** plant and systems of work are designed and maintained to the highest possible standard in order to minimise accidents and unforeseen occurrences. The Company will endeavour to work closely with the relevant statutory bodies to meet all applicable legislation and improve operating procedures.
- **“Waste Reduction and Recycling”** careful consideration will be given to the elimination or minimisation of waste at source and the recycling or reuse of materials.
- **“Waste Disposal”** disposal and transport of waste off site will be carried out in a responsible manner with due regards to all environmental considerations.
- **“Effects on the Community”** noise, odour, atmospheric emissions, traffic and other aspects of the Companies activities which can affect the local community will be controlled to the lowest practical level.

Any threat of pollution from its activities and products will be identified and either eliminated or effectively controlled.
